I am a student of Informatics Study Program at Telkom University with special interest in software development. During my studies, I was actively involved in various software development projects, including web and mobile applications. I have a strong understanding of programming languages such as PHP, Laravel, Java, C++, Python, HTML, CSS, and JavaScript.

I am a skilled web programmer. I am well-versed in the various technologies and tools required to develop reliable and secure web applications. I have worked with databases such as MySQL and PostgreSQL, and used front-end techniques such as AJAX and jQuery to improve the interactivity and performance of applications. In addition, I have good analytical skills and am able to work independently as well as in a team. I believe that my creativity and adaptability will be a valuable asset in a dynamic work environment. I also have an interest in learning new technologies and am ready to continue learning and growing in my career in information technology.

Work Experiences

PT. NEUHEUN AKUAKULTUR TIMUR (NAT) - Aceh Timur

Jun 2023 - Sep 2023

Web Programmer

PT Nat is a company engaged in shrimp farming, especially vaname shrimp. Established in 2022, the company has successfully built a high-tech farming infrastructure in Matang Neuheun Village, East Aceh Regency, Aceh Province. With a focus on modern technology, PT. Nat is committed to producing high-quality vaname shrimp that can compete in local and international markets.
